## Profile

Data & AI Consultant. I design and industrialise Data products for complex industrial environments, from Snowflake/dbt modelling to business reporting. I turn business needs into reliable architectures. Working in Agile teams, I use generative AI (Cursor, Claude Code) to speed up development.

## Skills

| Data platforms | Data engineering | Analytics & BI | Artificial intelligence | Methods & tools |
|---|---|---|---|---|
| Snowflake | dbt | SQL | Generative AI | Agile / Scrum |
| Microsoft Fabric | Talend | Power BI | Cursor | Git |
| Azure | IBM DataStage | Cognos | Claude Code | Jira |
| Azure Data Factory | Semarchy | SAP BW | Python | Confluence |
| Oracle | ETL / ELT | BusinessObjects | | |
| | Data Warehouse | | | |

## Professional experience

### Sanofi Accelerator

June 2026 — Present · Lyon

**Senior Data Consultant I Data & AI Products**

Contributing to a Batch Readiness companion for Sanofi's industrial sites, designed to reduce batch destructions and deviations.

- Analyse business processes and translate needs into Data solutions.
- Develop data models and transformations with Snowflake and dbt.
- Set up the artificial intelligence components the product needs.
- Work closely with Product, Data Engineering, Front-end, Back-end and UX/UI teams in an Agile environment.
- Use generative AI tools (Cursor, Claude Code) to speed up development and improve deliverable quality.

**Technologies:** Snowflake, dbt, SQL, Git, Cursor, Claude Code, Jira, Confluence, Scrum

### Pellenc

September 2024 — June 2026 · Pertuis

**Data Migration Consultant**

Led a data migration programme as part of an IT transformation, reporting directly to management (executive committee / CIO).

- Led and monitored the data migration development teams; prioritised workstreams by business impact.
- Analysed, structured and cleansed data from multiple information systems.
- Contributed to data governance: reference data, quality rules and controls.
- Tracked migration project progress in Microsoft Fabric.
- Organised and led the acceptance testing phases.
- Coordinated business, IT and data teams.

**Technologies:** Infor M3, IFS, Semarchy, Odoo, Talend, Microsoft Fabric, SQL, Jira, Confluence

### GSF

April 2020 — September 2024 · Sophia Antipolis

**Data Lead I Data Modernisation**

Took part in modernising the company's BI landscape towards a Cloud architecture.

- Defined and rolled out the data strategy for this modernisation.
- Migrated from Oracle to Snowflake, with Snowpipe ingestion and dbt transformations.
- Evolved the architecture from an ODS / DWH to a Data Lake and data marts.
- Redesigned reporting and migrated from Cognos to Power BI.
- Techno-functional lead of the BI team: coordination, upskilling, development standards.
- Supported business teams from requirements and KPIs through to adoption of data solutions.

**Technologies:** Snowflake, Snowpipe, dbt, Azure Data Factory, Power BI, SQL, Git, Scrum

## Earlier experience

### CPRO — BI Consultant

January 2019 — March 2020 · Valence

Developed the BI platform: data warehouse modelling, ETL flows and Power BI dashboards.

**Technologies:** Power BI, Pentaho, PostgreSQL, Git

### GSF — Techno-Functional BI Consultant

February 2017 — December 2018 · Sophia Antipolis

Designed the Finance department's BI platform with IBM DataStage, Oracle and Cognos.

**Technologies:** IBM DataStage, Oracle, Cognos, SQL

### Arkema — SAP BW / Business Objects Consultant

January 2015 — January 2017 · Lyon

Enhancements to the SAP BI platform for the Finance and Procurement departments.

**Technologies:** SAP BW, SAP BO, SAP ECC, Bex

### bioMérieux — SAP BW / Cognos Consultant

February 2013 — December 2014 · Lyon

BI solutions for Finance, Production, Procurement and Sales.

**Technologies:** SAP BW, SAP ECC, Bex, IBM Cognos
